

Is It Safe To Buy A Copier Online?

When researching your options for a new or refurbished copier, it's easy to go with the online option, but online sales can often end in confusion, surprise and frustration. Online "dealers" often tempt you with a low price, but what you may not see is that accessories, fees, delivery and training are not included. If it's a used machine you're looking for, you'll also want to be sure to check the meter readings. This will tell you how many prints that machine has made.

When you purchase a copier from Consolidated Copier Services this is not the case. We are upfront and honest when it comes to our sales. You will be quoted for exactly what you need, whether that's a finisher, fax kit or extra paper tray. Any used machines that you purchase come with a detailed worksheet describing the meter readings and replaced parts.

When you purchase a copier from Consolidated Copier Services, all of this is INCLUDED:

- Delivery including labor, mileage, gas, and truck usage
- Installation
- Initial networking and print driver(s) installation
- Set-up supplies
- Unlimited customer training
- Locally stocked supplies for future supply needs
- Any needed future loaners same or next-day in emergencies
- Future needed parts and supplies replaced with no quota limitations
- Online portal for immediate 24/7 access to your account: request service, see status of service calls, check invoices, report meters, and more

**Don't pay for some
or all of these
services when you
can get them for
FREE from CCS!**
